IMPORTANT INFORMATION before you register for Spring Session 2021:

- Spring Session at LEC is approximately 7 weeks long, and is fast paced and condensed. Students need to consider their personal work schedules, family commitments and other personal commitments before registering.
 - Because of the fast pace and the short time of Spring Session, regular attendance is mandatory. Students **CANNOT** miss more than one class, even for good reasons, as they will not be able to keep up with the course and achieve success. Teachers do not re-teach missed content.
 - Students should expect a *minimum* of one hour of homework each day.
 - Classes that run 2 days per week still require a 4 day per week commitment from students since there is work completed between classes through online assignments or on-site self paced learning.
 - Students can take one Spring Session course, as well as whatever self-paced course(s) they are currently registered in prior to Spring Session; students wanting to take more than one course must have permission from an LEC counsellor or administrator.
 - **All students must be in attendance by the second Spring Session class or they will be withdrawn.**
 - Students who are registered in a school district other than Langley may not be eligible to take classes which run 4 days per week. Check at the LEC Office for more information before registering.
 - **NOTE regarding "Skillbuilder" courses** - these courses offer a little over 40 hours of class time and are not complete courses / levels. Students will NOT be given credit for finishing a complete level in Spring Session 2021. The courses are designed to allow students to improve their existing skills and also to keep their skills current ahead of full courses offered in Fall Session 2021. See the office for more details.
- **Students must be 16 years old as of July 1, 2020 in order to qualify for a class which runs four days per week. Check at the LEC Office for more information before registering.
